As the library year draws to a close, we find ourselves making several changes for the new year. Due to the resignation of the librarian Mrs. Carrie McDonald, it was necessary to find a new librarian to replace her. Mrs. Helen Thayer has taken over these duties. The library hours were not suited to the greatest number of people, so on Wednesday afternoons, from 3:30 to 5:30 p. m., the library will be open to serve every one, and no evening hours are available at this time. The first day of this change showed a circulation of 47 books; 22 juvenile and 25 adult. We hope even more will take advantage of these new hours, if possible.

Many new books are nearly ready to be put on the shelves and it is the present work of the committee and librarian to check all old books, discarding the worn, out-dated and useless ones, to make room for these new and up-to-date books.

The circulation for the year 1948 was as follows: Adult fiction 714; adult non-fiction 204; juvenile fiction 1067; juvenile non-fiction 51.

We are fortunate in obtaining the janitor services of Bob Silver, who always has the room comfortable for work on Wednesdays.

The library is for your enjoyment and benefit. We welcome you all, and invite you to use it often. If you have any book in mind that would be an asset to the library, kindly contact your committee, or librarian with suggestions.

Signed,

HELEN B. THAYER,

Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Harrisville :

I herein submit my sixth annual report as Superintendent of Schools.

The expanding role of public education emphasizes the need for many revisions in our rural school programs. The proposed new school in Harrisville will lessen the chasm between "the schools we have" and "the kind of school we have said we want."

"School authorities agree that adequate educational opportunity can be had only when elementary schools bring sufficient number of children together so that there is one teacher provided for each grade. The present rural school district organization in New Hampshire has too few pupils and too little taxable wealth in back of each pupil to provide good schools on an economical basis." It appears that the Harrisville School District should consider in detail the idea of a cooperative school district and consult with neighboring school districts concerning the feasibility of such a plan prior to the construction of the proposed new school. The Cooperative School District Law, passed by the legislature, provides the means for well organized schools in rural areas.

REPORT OF HARRISVILLE SCHOOL BUILDING COMMITTEE

Feb. 3, 1949.

Since the Harrisville Town Meeting of March, 1948 the Harrisville School Building committee has met in several conferences with our architect, Mr. Randlett, and the donor, Mr. Wells.

Due to the high cost of building the committee thought it advisable to submit a complete report to all the taxpayers of Harrisville at a time of the year when it would be possible for the summer residents to express their opinions on the question.

Consequently a full report was drawn up by Atty. Gardner C. Turner, counsel for the committee, and duly mailed to all taxpayers of the town. Following this an open meeting was held in August for the purpose of discussing whether or not the town should appropriate the additional money necessary to build at this time.

At this open meeting in August the general sense of opinion, at least as expressed, seemed to be in favor of going ahead with final plans and specifications, with firm bids from contractors, to be submitted and acted upon at the regular March, 1949, town meeting.

The committee then held a series of meetings with the architect to work out these final plans. The original objective of a three class-room building with auditorium then had to be set aside due to architect's and contractors' estimates of present cost as being over \$120,000. Because this was so much higher than the maximum figures discussed at the general public meeting the committee then discarded this general plan and instructed the architect to draw up a plan in which an activities room was substituted for an auditorium. Such a plan, according to the State Board advisers, would be adequate to meet the needs of the school children, with a substantial folding partition between the activities room and an adjoining classroom to provide space for large meetings.

Sketches of such a plan have been drawn by the architect and generally agreed upon by the committee as being the best

type of building that the town can afford due to present high building costs.

However, at this point it was very strongly suggested by the New Hampshire State Commissioner of Education, that the town consider a broader educational plan whereby Harrisville would join with several other small adjacent towns to build a larger consolidated school governed by a consolidated school district for the purpose of achieving greater educational advantages for the children of the town. Such a plan to be in line with the broad educational program for consolidating small school districts strongly recommended by the State Board of Education. An open meeting to discuss this plan addressed by Hilton C. Buley, Commissioner of Education, is planned for February 11, 1949, too late for this report.

The future action of the town regarding the new school, will depend on the results of this meeting. In the event that the town does not wish to consider this broader plan for a larger area school, the Committee will raise an additional thirty-five thousand dollars which, added to funds already available for the new school, would give a total of eighty thousand dollars, enough to complete a school according to the plans discussed above. That is a three room school with activities room to serve the town of Harrisville only. It is further the plan of the Building Committee to move that the District School Meeting be recessed until an as yet undetermined date in the spring when the town can take definite action on plans for the new school.

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

F. J. BAKER,
District Fire Chief.
